

Publications

In the lower half of the Upload Science screen, select any listed publication in order to associate a publication with the progress report.

Report publications resulting directly from this grant that you have not previously reported, including manuscripts submitted or accepted for publication. Provide the complete citation (author(s), title, journal or book, volume, page number, year). For each publication that falls under the Public Access Policy, provide the NIH Manuscript Submission reference number (e.g., NIHMS97531) or the PubMed Central (PMC) reference number (e.g., PMCID234567), at the end of the citation. If the PMCID is not yet available because the Journal submits articles directly to PMC on behalf of their authors, indicate "PMC Journal - In Process." A list of these Journals is posted at:

http://publicaccess.nih.gov/submit_process_journals.htm. Citations that are not covered by the Public Access Policy, but are publicly available in a free, online format may include URLs or PubMed ID (PMID) numbers along with the full reference. If not available electronically you may provide one copy with the progress report. State if there have been no publications.

A citation management tool "My Bibliography" is now integrated with eRA Commons and is to be used to manage publication citations in the eSNAP Upload Science screen. "My Bibliography" includes an export function, which allows the tool to be used for managing citations in biosketches and in progress reports for non-SNAP awards. My Bibliography will display the correct text format, and if available, include the appropriate reference number (PMID, PMCID, or NIHMSID). For additional information about "My Bibliography", see NIH Guide Notice [NOT-OD-10-103](#). Or access the link below.

http://www.ncbi.nlm.nih.gov/books/NBK3842/#MyNCBI.Getting_Started

For additional information on compliance with the Public Access Policy see NIH Guide Notice [NOT-OD-08-119](#) and [NOT-OD-09-136](#).
